

Announcing the AC-2 Switched AC Outlet

The AC-2 offers the following features:

- 1 to 30 vdc trigger input
- Video sync trigger with high impedance loop.
True video sync trigger. Yes, it triggers on a blue video signal. Even a black video signal.
- IR Remote operation
You don't need any other device to program the codes. The AC-2 will teach learning remotes.
- 15 amp maximum. 6 ft. power cord.
- Wall mountable

We're so confident **you** will like the AC-2, we will send one to you for a 2 week trial just by sending back the form below. If you decide to keep the AC-2, just pay the invoice, otherwise send it back for 100% credit. The only questions we're going to ask is why you didn't like it.

Please answer all questions to receive trial units.
