

Announcing the VR-2 Audio/Video A-B Switches

The VR-2 offers the following features:

Manual Mode:

- 3 to 24 vdc trigger input
- IR Remote operation

You don't need any other device to program the codes. The VR-2 will teach learning remotes.

Automatic Mode:

- Senses the B video input and automatically switches it to the output
- 12vdc power supply
- Wall mountable

We're so confident **you** will like the VR-2, we will send one to you for a 2 week trial just by sending back the form below. If you decide to keep the VR-2, just pay the invoice, otherwise send it back for 100% credit. The only questions we're going to ask is why you didn't like it.

Please answer all questions to receive trial units.

Name _____
 Company _____
 Address _____
 City _____ State _____ Zip _____
 Phone: _____
 Fax: _____
 e-mail: _____

Please fill out the questionnaire to the left and fax or mail in today for immediate shipment of your trial unit(s).

All orders are subject to credit approval. If you are not currently an R.F. Systems customer, a dealer application will be faxed upon receipt of this order.

Are you a Crestron, AMX or PHAST dealer?
 How many systems do you install in a year? 1-5 6-10 11+
 Are you currently a R.F.Systems customer Yes No

I would you like to try the
 VR-2 (rca audio/video)
 VR-2Y (rca audio, DIN S-VHS video)
 VR-2/BNC (rca audio, BNC video)
 VR-2C (RCA component video)

You will be billed the 10+ dealer cost + shipping for the VR-2(s) on a Net 30 invoice. If you do not like the unit, return it within 14 days to have your account credited.
