

RFS TECH-FAX

This TECH-FAX describes the MX-KEY1, MX-KEY2, RC-8-VX-K and RC-8-VX-KB keypads for the A/V Matrix systems and RC-8-VX A/V Zone Controller.

This keypad can be used with any of the A/V matrix controllers or zone controllers manufactured by R.F. Shystems. Each keypad contains the following features:

- fits in standard 3 gang electrical box
- connected (daisy chain format) via a 6 conductor flat phone cable
- matte finish with clear LCD window
- easily cleaned using soap and water
- high-reliability electronics
- high-reliability communications to base unit
- includes IR detector/repeater system with expansion via Xantech system
- menu driven for setup
- two button operation for everyday use

The MX-KEY1 and RC-8-VX-K features a standard relective LCD. The MX-KEY2 and RC-8-VX-KB features a backlit LCD for use in poorly lit rooms. Each keypad is powered though the phone cable connection from the base control unit.
